Department Summary: (Information provided in this section will be included on the agenda. Attach explanatory memorandum and other background information as necessary).

Two of the five Board of Directors members of the Richvale Recreation and Park District (District) had terms that ended December 2, 2016, and an additional seat has been vacant for at least two years, leaving the District without a quorum. Directors are elected by the voters within the District, however, no one filed a declaration of candidacy for the November 8, 2016 General District Election to fill any of the vacant positions.

Government Code section 1780(h)(1) provides for the Board of Supervisors to appoint enough members to provide the District board with a quorum, if more than 90 days have passed since the vacancies occurred.

Supervisor Lambert requests that Greg Stephens be appointed to fill the position he held until it expired on December 2, 2016. Mr. Stephens' new term will expire once the person who is elected at the November 2018 election has been qualified.
