Subject: Authorization to Advertise and Bid the Kelly Ridge Road Emergency Relief (ER) Rehabilitation Project

Department: Public Works
Contact: Dennis Schmidt  Phone: 530.538.7681

Meeting Date Requested: May 21, 2019

Department Summary: (Information provided in this section will be included on the agenda. Attach explanatory memorandum and other background as necessary).

The Kelly Ridge Road ER Rehabilitation Project will provide for removal of damaged pavement sections with dig-outs and placement of a single layer chip seal on Kelly Ridge Road from State Route 162 to 720 feet north of Royal Oaks Drive. The total project length is approximately 2.15 miles. This repair work is due to damage caused from the emergency response for the Oroville Dam spillway incident. Federal funding was recently released that has now allowed this and several other projects to move forward.

Asphalt concrete dig-out is a process of removing the damaged portion of the traveled roadway by milling the road surface to a depth of approximately three inches and repaving the removed portion with three inches of hot mix asphalt. The engineer's estimate for construction is $320,000 for this section of roadway. The total project cost is $450,000, which includes preliminary engineering, construction, and construction engineering.

The Department of Public Works recommends the Board of Supervisors authorize the Department to advertise and solicit bids for the construction of the Kelly Ridge Road ER Rehabilitation Project. Modifications to the Road Fund Work plan and detailed budget modifications will be brought back with the award of contract, once bid prices are quantified.

Fiscal Impact:

The project will be funded with $225,000 in Federal Highway Administration ER funds and the remainder with SB1 funds. There is no impact to the General fund.

Personnel Impact:

Does not apply.

Action Requested:

Authorize the Director of Public Works to advertise and bid the project.

Administrative Office Review: Andy Pickett, Deputy Chief Administrative Officer

Revised: April, 2019
